### Summer Internship
Students must find a summer internship at an appropriate federal government employer. The CyberCorps SFS Program coordinates an annual job fair with several participating federal government agencies where CyberCorps students place into both summer employment and permanent employment.

In some cases, students are permitted to work for state, local, or tribal government agencies; national laboratories; or federally funded research and development corporations.

The CyberCorps SFS Program is committed to placing CyberCorps students into qualifying employment.

### Service Requirement (Upon Graduation)
Students must also commit to one full year of federal employment for each year or partial year on scholarship.

The federal agency may be the same or different from the employer for the student’s summer internship.

### Duration of scholarship
- Up to 2 years for undergraduates or masters students
- Up to 3 years for doctoral studies or joint bachelors/masters programs

### Minimum GPA
- Undergraduate Students: 3.0
- Graduate/Doctoral Students: 3.2

### Eligibility
- United States citizens and lawful permanent residents
- Age 18 or older
- A rising university junior or higher
- Enrolled, accepted, or applied for full-time enrollment at GW with an undergraduate or graduate major in an area related to computer security and information assurance

### Application Deadline
January 31st of each year
